October 15, 2014

Dear Graham

On behalf of all the board members of H2O (Haven of Hope) I would like to express our appreciation for all the work you have completed over the last three years. We could not have accomplished all that we have or fulfilled so many of our plans and goals without your gracious and industrious volunteering.

You have been faithful through every type of weather and you have experienced them all! (extreme heat, rain, severe flooding and severe cold) and in very challenging and arduous circumstances. The 544 hours you have invested in the property over the last three years, with over 384 hours in 2014 alone, have been very appreciated. The variety of skills you have shown has been diverse and the results have been amazing.

We want to thank you for clearing land for roads, bush clearing, trail building and for tending umpteen burn piles, for assisting in the building of outhouses, putting up sheds, putting in fences, staining picnic tables and even helping construct an apiary and being coming a certified beekeeper to help with that process. You have been involved in mowing and weeding, putting in beaches and a beach volleyball court, a fire pit and many other activities. Your help overseeing the children from the Cranbrook Boys and Girls Club was invaluable. You have a gift with children.

Thank you too for your expertise in using Adobe Photoshop in the work you have done for our charity in the making of brochures, honey labels and numerous maps needed by the Regional District and the Agricultural Land Commission, for providing invaluable technical support and file backup on our computer system. In every situation you have persevered, been consistent, hard working and reliable and cheerful.

Once again thank you from each of us at H2O. Your input, hard work and dependability cannot be overstated. We look forward to continuing our partnership in this endeavour. We wish you the very best in your future pursuits.

Sincerely

Teresa L. Baylis
H2O Board Member
